

Critical Information Summary

Naked DSL

Information about the Service

Naked DSL Broadband uses existing copper wiring to deliver a service.

Unbundled Local Loop (ULL) – This broadband service uses a dedicated copper pair, and does not coexist with any other services.

Required Services & Availability

ADSL requires good quality copper wiring between our equipment and the customers modem; if the quality of the line is poor the service will not work.

Speeds are variable and subject to change depending on line quality and environmental factors.

Minimum Term

The minimum connection term is 6 concurrent months from the date of the service is active and ready to use, should the customer disconnect within this period a disconnection fee may be applicable.
